19. (Cancelled)

20. (Previously Presented) The method of claim 14, further comprising:

during the later period of time, providing web page information onto the internet for receipt by a client computer that is the customer-operated terminal,

wherein the notification is provided onto the internet for receipt by the customer-operated terminal,

wherein the customer information is received off of the internet after being transmitted by the customer-operated terminal, and

wherein a central terminal that receives the customer information and the time limits is at least one of owned and operated in response to direction provided by at least

one of an insurance company and an insurance provider.

21. (Currently Amended) A method of providing short-term insurance coverage from an insurer to a customer in relation to a customer-owned item via the internet, the method comprising:

(a) receiving an inquiry at a server computer hosting a website of the insurer;

(b) providing an input form onto the internet to a first client computer operated by the customer;

(c) receiving customer information at the server computer that has been input at the first client computer by way of the input form;

(d) making a preliminary determination based upon the customer information as to whether it is possible to provide the customer insurance of a first type with respect to the customer-owned item;

(e) providing a field for inputting a time limitation relating to the insurance of the first type, the time limitation indicating a time period less than a month;

(f) receiving the time limitation at the server computer;

(g) performing processing in relation to the time limitation to determine whether the insurance of the first type as restricted by the time limitation can be provided with respect to the customer-owned item; and

Appl. No. 09/694,402
Amdt. Dated 8/17/07

20 (h) providing an indication to be received by the customer concerning whether the insurance of the first type as restricted by the time limitation can be provided with respect to the customer-owned item;

(i) concluding an arrangement so that the insurance of the first type as restricted by the time limitation is provided to the customer; and

25 (j) repeating (e)-(i) on at least one additional occasion so that the insurance of the first type as restricted by at least one additional time limitation is provided to the customer.

22. (Currently Amended) The method of claim 21, ~~wherein (e) through (h) are repeated on multiple occasions in order to repeatedly obtain the insurance of the first type during multiple time periods determined by the time limitation and subsequent received time limitations~~ further comprising:

5 at a time subsequent to (i), receiving a request from the customer to adjust a geographic scope characteristic of the insurance.

23. (Previously Presented) The method of claim 21, wherein the customer information includes an identification number corresponding to a customer-owned vehicle with respect to which the customer desires to obtain the short-term insurance coverage, and wherein the providing in at least one of (b), (e) and (h) involves the
5 providing of a web page for display at the client computer.

24. (Previously Presented) The method of claim 21, further comprising at least one of;

determining a cost of the insurance of the first type as restricted by the time limitation; and

5 providing an additional field for inputting a geographic limitation relating to the insurance of the first type, wherein at least one of the geographic limitation and the time limitation can be entered by selecting an entry from a set of selectable menu items.

25. (Previously Presented) The method of claim 21,

Appl. No. 09/694,402
Amdt. Dated 8/17/07

establishing an identifier by which the customer is able to log in to the website repeatedly at future time periods using the client computer to repeatedly order amounts of the insurance of the first type, the identifier including at least one of a username and a
5 password.
